Application to enrol in a Queensland state school

This sheet contains information on how to complete the Application for student enrolment form (SEF-1 Version 8).

Entitlement to enrolment

Under the *Education (General Provisions) Act 2006 (Qld)* a state school must enrol a prospective student if they are entitled to enrolment. While not exhaustive, the following matters may affect a prospective student's entitlement to enrol in a state school:

- if the school has a School Enrolment Management Plan or an Enrolment Eligibility Plan (enrolment is subject to eligibility under the plan)
- the applicant is a prospective mature age student (the applicant can only apply for enrolment at a mature age state school and will be subject to a satisfactory criminal history check, or as a student in a program of distance education. All prospective mature age students must have a remaining allocation of state education.)
- the prospective student is not of correct age for enrolment (relates to Preparatory Year and Years 1 to 6)
- the prospective student has been excluded, or is subject to suspension from a state school at the time of the application
- the school principal reasonably believes that the prospective student presents an unacceptable risk to the safety or wellbeing of members of the school community (application is referred to the Director-General)
- the school is a state special school and the prospective student does not meet the criteria for enrolment in a special school
- the proposed enrolment requires approval as part of a flexible arrangement under s.183 of the *Education (General Provisions) Act 2006 (Qld)*, and the arrangement has not yet been approved
- the prospective student is not an Australian resident or citizen or the child of an Australian permanent resident or citizen (visa restrictions may apply, fees may be charged, in some cases legislation requires that the prospective student must obtain approval from the Chief Executive via Education Queensland International (EQI) to enrol)
- the school does not offer the year level that the prospective student should be enrolled in
- the prospective student has no remaining semester allocation of state education. Enrolment cannot proceed until additional semesters are applied for by the prospective student (or parent on their behalf) and granted.

Prospective student

A prospective student is a person who has applied to enrol at a state school but who has not yet been accepted for enrolment.

Parent's occupation and education

All parents across Australia, no matter which school their child attends, are asked to provide information about family background (answering this question is optional). The main purpose of collecting this information is to promote an education system which is fair for all Australian students regardless of their background.

Court Orders

Any court orders concerning the prospective student's welfare, safety or parenting arrangements should be provided to the school, and the school should also be provided with any new or updated orders.

Name on enrolment form

A prospective student should be enrolled under their legal name as per their birth certificate. There is provision to also record a preferred family and/or given name. The preferred name will be used on internal school documents such as class rolls. The legal name will appear on semester reports unless there is a specific request to use the preferred name only. This request can come from parents/carers or the student (if the student is independent/mature age).

Gender

Information about gender is supplied to the Federal Government to comply with State funding agreements. The gender category with which a person identifies may not match the sex they were assigned at birth. There is no requirement for a student's gender recorded on this form to align with the sex shown on their birth certificate or passport.

Religious Instruction

Religious instruction is a program approved and provided by a religious denomination or religious society. Other instruction relates to part of a subject area that has been covered within the curriculum and may include, but is not limited to, personal research and/or assignments, revision of class work, and wider reading. Information about religious instruction available at the school, and about other instruction, is provided by the school at the time of enrolment and on the school's website.

- 1) I will use it only for educational purposes.
- 2) I will not look for anything that is illegal, dangerous or offensive.
- 3) If I accidentally come across something that is illegal, dangerous or offensive, I will:
 - (a) clear any offensive pictures or information from my screen; and
 - (b) immediately, quietly, inform my teacher.
- 4) I will not reveal home addresses or phone numbers - mine or anyone else's.
- 5) I will not use the Internet to annoy or offend anyone else.
- 6) I understand that if the school decides I have broken these rules, appropriate action will be taken. This may include loss of my Internet access for some time.

PARENT/CAREGIVER:

I understand that the School Computer Network and the Internet can provide students with valuable learning experiences.

I also understand that it gives access to information on computers around the world; that the school cannot control what is on those computers; and that a very small part of that information can be illegal, dangerous or offensive.

I accept that, while teachers will always exercise their duty of care, protection against exposure to harmful information should depend finally upon responsible use by students.

I believe that my child/children listed on this form understand this responsibility, and I hereby give my permission for him/her to access the Internet under the school rules. I understand that students breaking these rules will be subject to appropriate action by the school. This may include loss of School Computer Network and Internet access for some time.

INFORMATION FOR STUDENTS AND THEIR PARENTS on SCHOOL NETWORK USAGE

Why are schools providing students access to ICT facilities?

To ensure young Queenslanders are well equipped to contribute fully to the information economy, the education sector is responding to the innovation directions of the *Smart State Strategy* (<http://www.smartstate.qld.gov.au/>) through the *Smart Classrooms: A Strategy for 2005-2007* (<http://education.qld.gov.au/smartclassrooms/strategy/>). This strategy focuses innovative programs and resources towards schools, teachers and students. An essential tool for schools in the provision of innovative educational programs is the utilisation of intranet, internet and network services. Therefore, access to these technologies is an increasingly essential part of the modern educational program provided in schools.

What is acceptable/appropriate use/behaviour by a student?

It is acceptable for students to use school computers and network infrastructure for: assigned class work and assignments set by teachers; developing literacy, communication and information skills; authoring text, artwork, audio and visual material for publication on the Intranet or Internet, solely for educational purposes as supervised and approved by the school; conducting research for school activities and projects; communicating with other students, teachers, parents or experts in relation to school work; and access to online references such as dictionaries, encyclopaedias, etc. Students can also collaborate, research and learn through Education Queensland's e-learning environment.

What is unacceptable/inappropriate use/behaviour by a student?

It is unacceptable for students to: download, distribute or publish offensive messages or pictures; use obscene or abusive language to harass, insult or attack others; deliberately waste printing and Internet resources; damage computers, printers or the network equipment; violate copyright laws which includes plagiarism; use unsupervised internet chat; and use online e-mail services (e.g. hotmail), send chain letters or Spam e-mail (junk mail). Usernames and passwords are to be kept by the student and not divulged to any other individual (e.g. a student should not give their fellow students their username and password). Students can not use another student or staff member's username or password to access the school's network, including not trespassing in another person's files, home drive or e-mail. Additionally, students should not divulge personal information (e.g. name, parent's name, address), via the internet or e-mail, to unknown entities or for reasons other than to fulfil the educational program requirements of the school.

What is expected of schools when providing student's with access to ICT facilities?

Schools will provide information in relation to student access and usage of its network and reserves the right to restrict/remove student access to the intranet, extranet, internet or network facilities if parents or students do not adhere to the school's network usage and access guideline/statement.

Schools will prepare students for the possibility of unanticipated access to harmful information, materials or approaches from unknown persons via the internet (e.g. run through processes for disregarding (or ceasing access) to information, the process for reporting accidental access to harmful information and reporting approaches from unknown persons via the internet to the supervising teacher or school staff member).

Where possible, classes involving internet usage by students will be prepared prior to class engagement, including, filtering and checking sites students are directed to visit. An assessment should be made of the appropriate timeframe for access to the internet for completing the set task or duration a student should have access to the internet (e.g. during schools hours, outside of school hours).

What awareness is expected of students and their parents?

Students and their parents should:

- understand the responsibility and behaviour requirements (as outlined by the school) that come with accessing the school's ICT network facilities and ensure they have the skills to report and discontinue access to harmful information if presented via the internet or e-mail;
- be aware:
 - that the ICT facilities should be utilised with good behaviour as stipulated under the Code of School Behaviour;
 - students breaking these rules will be subject to appropriate action by the school. This may include restricted network access for a period as deemed appropriate by the school;
 - access to ICT facilities provides valuable learning experiences, therefore giving the student educational benefits in line with the school's educational program;
 - the Internet gives access to information on and from a wide variety of organisations, subjects, people, places with origins from around the world; the school can not control information accessed through the internet; and information may be accessed or accidentally displayed which could be illegal, dangerous or offensive, with or without the student's immediate knowledge; and
 - teachers will always exercise their duty of care, but protection, mitigation and discontinued access to harmful information requires responsible use by the student.

Uncontrolled copy. Refer to *ICT-PR-004: Using the Department's Corporate ICT Network* at <http://education.qld.gov.au/strategic/eppr/ict/ictpr004/> for master.

- what information we record
- how we will use student materials created during your child's enrolment.

Examples of personal information which may be used and disclosed (subject to consent) include part of a person's name, image/photograph, voice/video recording or year level.

Your child's student materials:

- are created by your child whether as an individual or part of a team
- may identify each person who contributed to the creation
- may represent Indigenous knowledge or culture.

Purpose of the consent

It is the school's usual practice to take photographs or record images of students and occasionally to publish limited personal information and student materials for the purpose of celebrating student achievement and promoting the school and more broadly celebrating Queensland education.

To achieve this, the school may use newsletters, its website, traditional media, social media or other new media as listed in the 'Media Sources' section below.

The State School Consent Form may, at your discretion, provide consent for personal information and a licence for the student materials to be published online or in other public forums. It also allows your child's personal information and student materials to be presented in part or alongside other students' achievements.

The school needs to receive consent in writing before it uses or discloses your child's personal information or student materials in a public forum. The attached form is a record of the consent provided.

It should be noted that in some instances the school may be required by the *Education (General Provisions) Act 2006* (Qld) or by law to record, use or disclose the student's personal information or materials without consent (e.g. assessment of student materials does not require further consent).

Voluntary

There will not be any negative repercussions for not completing the State School Consent Form or for giving limited consent. All students will continue to receive their education regardless of whether consent is given or not.

Consent may be limited or withdrawn

Consent may be limited or withdrawn at any time by you.

If you wish to limit or withdraw consent please notify the school in writing (by email or letter). The school will confirm the receipt of your request via email if you provide an email address.

If in doubt, the school may treat a notice to limit consent as a comprehensive withdrawal of consent until the limit is clarified to the school's satisfaction.

Due to the nature of the internet and social media (which distributes and copies information), it may not be possible for all copies of information (including images of student materials) once published by consent, to be deleted or restricted from use.

The school may take down content that is under its direct control, however, published information and materials cannot be deleted and the school is under no obligation to communicate changes to consent with other entities/ third parties.
